

Insec(tc)ure*: Are you insecure about your insect cures?

A University of Tennessee Urban IPM Lab Newsletter for the Pest Management Industry

A Sampling of Upcoming Category 7 PMP Educational Opportunities

Karen Vail, UT Entomology & Plant Pathology

I omitted the upcoming educational opportunities section from the last newsletter, and with so many essential meetings scheduled in the next few months, I wanted to provide it ASAP. So here they are in chronological order:

Pest Management Virtual Workshop January 8, 2026

This 4-hour workshop will provide 4 talks, 9:00-12:50 PM on January 8th, live via Zoom.

- 9:00-9:50 AM: Common Pest Ants - Habits, biology and baiting strategies. John Singletary, ACE with Nisus Corp.
- 10:00-10:50 AM: Pest Trends in TN Multifamily Housing: A Dozen Years of Monitoring and Solutions. Dr. Karen Vail, Professor and Extension Urban Entomologist, the University of Tennessee.
- 11:00-11:50 AM: Mosquito and Tick Update: Vectors and Vectorborne Diseases in Tennessee and Georgia. Dr. Dawn Ford, Epidemiologist and CEO, Ford Training and Consulting
- 12:00-12:50 PM: Stinging Insects and their Management. Robert Lathrop, Owner of Mosquito Joe of Chattanooga.

TDA: C7, 10, 12 = 4 pts; C3 = 3 pts. GDA: 23(4), 31(3), 24(2), 27(2), 41(2), 35(1).

Register: www.drdawnford.com/registration

2026 Smoky Mountain Pest Control Conference, UT Conference Center, Knoxville, January 14, 2026

7-7:45a	Registration & Exhibit Hall (check-in, name badge pick-up)

Another ACE added to the Tennessee List

Please congratulate Will Bullard of Chorus Pest Control for passing the Entomological Society of America's Associate Certified Entomologist (ACE) Exam. Way to go Will! Find out more about becoming an ACE (<https://entocert.org/ace>) and our UT ACE Exam Prep Course (<https://tiny.utk.edu/ACEPrepFall2025>).

Happy holidays, everyone! I hope you find time over the next few weeks to enjoy friends and family and reflect on where you've been and where you're headed. See ya next year!

Precautionary Statement

To protect people and the environment, pesticides should be used safely. This is everyone's responsibility, especially the user. Read and follow label directions carefully before you buy, mix, apply, store or dispose of a pesticide. According to laws regulating pesticides, they must be used only as directed by the label and registered for use in your state.

Disclaimer

This publication contains pesticide recommendations that are subject to change at any time. The recommendations in this publication are provided only as a guide. It is always the pesticide applicator's responsibility, by law, to read and follow all current label directions for the specific pesticide being used. The label always takes precedence over the recommendations found in this publication.

Use of trade or brand names in this publication is for clarity and information; it does not imply approval of the product to the exclusion of others that may be of similar, suitable composition, nor does it guarantee or warrant the standard of the product. The author(s), the University of Tennessee Institute of Agriculture and University of Tennessee Extension assume no liability resulting from the use of these recommendations.

Programs in agriculture and natural resources, 4-H youth development, family and consumer sciences, and resource development. University of Tennessee Institute of Agriculture, US Department of Agriculture and county governments cooperating. UT Extension provides equal opportunities in programs and employment.
